

Pr ZELERIS®

[florfenicol + meloxicam]

AVAILABLE NOW
100, 250, 500 mL

- Zeleris is a solution combining a highly concentrated **antibiotic florfenicol** (400 mg/mL) and **meloxicam** (5 mg/mL). The **higher concentration of florfenicol** translates to a lower volume of injection per dose, in comparison with other injectable florfenicol based products*.
- With **up to 15 mL per injection site**, administered subcutaneously this means:
 - ✓ Fewer injections
 - ✓ Less manipulation = Less stress for the animal
 - ✓ More convenient

Easy dosage:
1 mL/10 kg
(4.5 mL/100 lbs)
